Name of Early Learning and Childcare Licensing Staff Tanya Gaudet		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Licensing staff arrived at the licensed facility on October 12th, 2022 to conduct a monitoring inspection. When licensing staff entered the preschool and younger school-aged classroom, the children were engaging in activity centres that consisted of building with mega blocks with pipe cleaners, playdough, sand play, light table play a painting activity.

The educators were very engaged and played with the children while they engaged in the play centres. Licensing staff observed the educators encouraging problem solving. A child attempted to take a toy from another child and the educator intervened by asking the child, who attempted to take a toy, to ask the other child if he could play with a toy as well. The other child said that he could join in on the play.

After the children and the educators cleaned up the room, everyone went outdoors to have their snack. for the remainder of the afternoon, the children played outside on the playground.

The older school-aged group also had their snack and played outside on the playground at the other end of the school. One group of children played on the swings while the others played soccer in the fenced in area.

Please ensure that all children get signed out on the attendance record when parents arrive to pick up their children in order to keep the attendance record updated.
