General Comments

Children were not in attendance one this date as the school was closed for cleaning before students return on Tuesday September 3rd.

The indoor play area was clean and tidy. Play materials were organized in bins with labels and were within reach of children and encouraged independence. Many activity areas were present such as a building area, dramatic play with barbie's, puppets and clothes, a kitchen area and art materials. Books could be found both on bookshelves and throughout the room to expand on the play and ideas of the activity centers.

The school age room had board games, legos, art materials and tec decks among other materials. All play materials were well organized and in labeled bins. Licensing staff discussed starting clubs and projects with the school age children based on their interests.

Follow up monitoring inspection will be performed when children are in attendance.
