Order for Compliance	Regulation	Date to be corrected	Date corrected
31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	Apr 24, 2023	Apr 24, 2023
Comments: Deficiency is now compliant. As per discussed with the Administrator both gates in the preschool outdoor play space need adjusted due to the frost and they are not closing securely and easily swing both ways. The administrator was able to adjust and temporarily fix, so children are unable to exit the play space.			

<b>General Comments</b>
<p>Monitoring visit performed.</p> <p>Administrative records were reviewed - attendance of staff and children are completed, outdoor checklist completed monthly and fire drills are recorded for each group. It is recommended that fire drills be completed as a centre not with individual groups.</p> <p>New staff info was verified, and educators are on target to meet the 10 hours PL training hours by the end of August.</p> <p>Upon arrival a couple of groups were eating snack, another group was creating dragon flies using their imagine and the materials the educators provided. Children are very interested in bugs and hence the reason for spending time educating children their importance in nature. Other children were getting dressed for outdoor play. All children were observed outdoors. Educators provided lots of reminders for children getting dressed and also assisted some children with dressing, though they encourage children to be independent with dressing. Educators were observed engaged in play with the children and one educator introduced blowing bubbles. Children were having so much fun running and trying to catch them.</p>
