General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, all classes had just finished eating morning snack and were preparing to go outside to the fenced in play area. Water bottles, hats, attendance records and first aid kits were brought outside.

Educators were well spread out on the playground to ensure proper supervision. A small group of children were observed scooping rocks into a pan. The children stated they were making pancakes and added "chocolate chips" on the top before serving them to their peers. A large group of children were seen laughing and smiling as they ran around playing hide-and-seek with an Educator. Later in the morning the children gathered in a large wooden boat, using shovels as paddles. The group worked together to find treasures before paddling to their next adventure.

The transition inside for lunch was smooth. Hands and faces were cleaned and proper diaper changing procedures were followed. The Educators sat with the children as they ate their lunch. One Educator cleaned hands and faces after the infants had finished eating while the other Educator was in the nap room. New staff files were reviewed and contained all required documents. Only positive child guidance was observed during today's Monitoring Inspection. The Educators were actively engaged with the children throughout the morning. They were attentive to the needs of the children and showed a genuine interest in their activities.
