Comments: Deficiency is now compliant			

General Comments

Monitoring Inspection:

Children and educators engaged in play and conversations this afternoon. Educators observed engaging in meaningful conversations with the children during snack, card games and at the art table.

Children observed making plans to create a library and cozy corner. Their educator encouraged them to draw out their plans and make a list of ideas for their library. I am looking forward to seeing the new library on my next visit. This will add a comfortable quiet place for the children to relax with a book.

Children appear to be comfortable, happy and having fun in their environment today.

Hand washing routines observed.

A healthy snack was served - fresh veggies, pitas and hummus.

New tables have been added to the play area. Great new addition!

Discussed with educator the importance of having full pieces of paper accessible to the children. A variety of paper sizes, colours, textures must be accessible for children to choose from.
