Comments: School-Age Outdoor Play Area: Wood pallets with nails protruding. To be removed. Blue slide laying on ground is cracked. To be removed.			

General Comments
Monitoring Inspection: Children and educators were observed engaged in a variety of activities this afternoon including building with Lego, mark making, exploring Perler beads, dramatic play and sensory opportunities. Purposeful planning is evident within the environment through invitations, documentation and materials added that support the children's current interests (wrestling, Lego, Perler beads, and building). QA Monitor discussed fire drills with administrator during inspection. Fire drills can be conducted for each room separately. Fruit salad and cheese was served for snack this afternoon. Handwashing routines were observed at arrival and before snack. Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection. New staff file (1) review was completed, all required documents are in place.
