General Comments
A follow-up inspection of the school-age licensed program was conducted in the afternoon. At the time of the inspection, the inspector observed children participating in outdoor activities with their peers in and around the fenced play area. The children and educator reported that earlier in the day they had attended a field trip to Blueberry Hill Nature Preserve in Grand Bay-Westfield. During the outing, the children participated in picking blueberries, raspberries, and blackberries. The educator and children indicated that the berries would be used later that afternoon to make jam as part of a planned activity. The facility is recommended for license renewal, pending receipt of the recommendation from the Office of the Fire Marshal.
