33(2) Stationary equipment in the outdoor play area shall be surrounded by a protective surfacing and installed according to the manufacturer's instructions.	33(2)	May 21, 2021	
Comments: Surfacing under stationary equipment to be raked. Discussed with administrator.			

<p><b>General Comments</b></p> <p>A renewal inspection was conducted today. Children were observed in both inside and outside play and learning during the visit. The educators have created engaging inviting learning environments for the children to interact and engage in. Children were observed engaged with art, blocks, air hockey, cars/construction and dramatic play. Proper hand-washing procedures were observed at both arrival from school and before snack. The children's art is displayed on the walls and educators planning is evident and the children's learning are displayed as well in the forms of pictures and captions. Discussed with administrator surfacing under stationary equipment. Recommending having small metal rakes as the children can help with this process. Pea gravel is accumulating under the landing of the equipment, main body of slides and away from the swings. This pea gravel will need to be raked back under the fall zones so children can still access this area for their outside play.</p>
