A renewal inspection was conducted today.

The children were observed during inside free play, snack, and outside play.

General Comments

Discussed with administrator and educators room arrangement and recommending referring to the Operators Manual--Appendix 24--Equipment and Materials for School-Age Children. This will help them with ideas on what is looked for in a school-age program. These are just ideas and the possibilities are endless. Discussed enhancing the creative art areas in both rooms as well as the block areas. Discussed that Dramatic play does not necessarily mean you need a kitchen but could be a hair salon, camping, etc, Whatever the children's interest are at that particular time.

The educators were observed very engaged with the children in their learning and play. The educators were observed having respectful and responsive relationships with the children in their care. The children have a rapport with the educators and a level of respect from them was observed.
