**General Comments**

A renewal inspection occurred today. Both school-age rooms were set up with activities prior to the arrival of the children from school. Handwashing routines were observed occurring numerous times during the inspection. It was evident during the inspection that washing hands as soon as arrival from school is part of their normal daily routine. The children were observed during inside play, snack and outside play. Discussed with educators in the room the use of the wooded area adjacent to the playground. There are numerous trees that have fallen and uprooted. This particular area of uprooted trees is off limits to the children due to safety. Licensing and Educators discussed having conversations with the school-age children regarding rules for safety in the wooded area. Educators indicated they would sit down with the children tomorrow, May 26, 2023, to come up with rules for their safety and indicated that they would have the children participate in coming up with these.
