General Comments
A Monitoring Inspection was completed this afternoon. The younger group had just finished making clay creations at QAM's arrival. A group of children were observed sitting together on a rug, playing the Tower Tops Game and another group of children were gathered on a rug, in the building area, making Lego creations. The younger children were joined by the older children, and at that point, all children prepared for outside play. The inside environment was observed while the children were outside. Several well-defined learning / play areas were observed. Several forms of documentation were also observed. While outside, children were observed playing on the play equipment - climbing and sliding, playing in the woods, and playing in the snow. Children were observed smiling and laughing and enjoying themselves. Positive Child Guidance Techniques were observed during outside play - educators setting reasonable limits and guidelines that made sense to the children, educators giving gentle reminders, educators providing appropriate supervision, and educators using positive language when interacting with the children.
