General Comments
<p>A renewal inspection occurred today. The children were observed arriving from school, participating in inside play, having snack and outside play on the school playground. The children were excited to make a "candy salad" for a special Friday afternoon treat. This was enjoyed by all the children. Discussed coloring sheets in the creative art area. These can be added as an "extra item" in addition to all the other creative art materials. Children in the school-age program can have the choice of using these, if there is an interest in them, as well as other art materials. Discussed the swings in the outside school-play ground. The two swings, adjacent to the woods, are not permitted for use as there is insufficient surfacing beneath the swings. The Administrator indicated that the children have not been permitted to use these due to lack of protective surfacing. Educators in both rooms were observed actively engaged with the children and speaking kindly and appropriately to them. Positive Child Guidance was also observed occurring during the renewal inspection. Redirecting behaviors in a positive manner.</p>
