<p>General Comments</p> <p>A renewal inspection was conducted today.</p> <p>Children in both rooms were observed in inside and outside play. Educators were observed having respectful conversations with the children. The children appeared happy and content in their environments and with their educators.</p> <p>Discussed with administrator surfacing under stationary equipment. Recommending having small metal rakes as the children can help with this process. Pea gravel is accumulating under the landing of the equipment, main body of slides and away from the swings. This pea gravel will need to be raked back under the fall zones so children can still access this area for their outside play.</p>
