<p>General Comments</p> <p>Children were playing outside at time of arrival. The outdoor play space is large and children were engaged in many activities. The educator was able to show licensing staff the breakdown of activities that is planned for the children and what they are doing. Educators were attentive to the children and engaged in conversation with them.</p> <p>All required information was easily verified by licensing staff. Files are organized and complete.</p> <p>Licensing staff asked one of the educators if children attended private or public pools. This same educator stated that they did not know and I would have to ask the Assistant Director. Through conversation with the assistant Director, it was stated that the children are currently not going to the Operator's private pool due to the lack of fencing. If this should change in the warmer weather, please notify your Quality Assurance Monitor.</p> <p>Licensing staff can recommend for licensing pending current Fire and Health inspections.</p>
