<p>General Comments</p> <p>The indoor environment has been set up with learning centres which include a gross motor area that contains mats, a basketball nets, a book area, a puzzle area, to name a few. The area appears much more organized although the Operator did admit that the children spend much more time outside than they do inside. The Operator has provided the children with a wooded area that they are making their own. The children were seen happily exploring the space during my visit.</p> <p>The educators advised me that they take the lead from the children with regards to what they want to do while at the centre. There was also evidence of the children's projects in the classroom such as tye dyed t-shirts that they had made in the summer. The Operator advised me that they had taken a field trip to dairy queen to support the Miracle Treat Day.</p> <p>The documentation for licensing is complete and well organized.</p> <p>The educators appear to have a good rapport with the school age children. Boundaries have been given to keep them safe, yet; they are allowed to have enough space to keep their independence. Educators were seen engaged with the children in conversation and giving reminders as the children needed it.</p> <p>I can now recommend facility for licensing.</p>
