General Comments

Upon licensing staff's arrival for the annual renewal, the school-age group had just arrived from the school bus and was engaged in outdoor play. Children were observed playing on the swings, climbing on the tires, running, and playing soccer in the designated outdoor play area. The play area contained age-appropriate materials and included a wooden area where children could explore and engage in play independently with the supervision of an educator.

Indoors, the program operates in the gym area, which includes a basketball net, mats for physical play, balls, and toy cars. Some documentation of children's activities was displayed on the walls. Licensing staff suggested updating the craft corner to create a more accessible and organized space for children to engage in creative activities.

Records review indicated that monthly outdoor playground safety checks and fire drills have been completed. Staff and child files were found to be up to date. Only positive child guidance was observed throughout the visit.

Licensing staff recommends the license for renewal.
