General Comments

A renewal inspection was completed today. The educators were observed both indoors and out and all were very engaged with the children and on level of the children.

In the twos/threes room the documentation of children's learning and recent activities were posted in the learning environment at the children's level. The activities are open ended to provide multiple choices, solutions and possibilities for exploration and investigation.

There was a variety of materials displayed in each room, giving children opportunity to model real life experiences.

All staff files and children's files were reviewed and complete.
