General Comments
The inspector is on site to conduct a follow-up inspection. During the visit, the following activities were observed: • Morning snack time, • Outdoor free play in one classroom, • Transitioning outdoors for the remaining four classrooms, • A staff member reading a book to children in one classroom. All previously identified deficiencies are now compliant. The inspector observes that the criminal record and vulnerable sector check in a new employee's file is missing the date that it was completed. The inspector recommended that the administrator have the employee visit the RCMP with the document to have the date officially added. The ratio is respected during the inspection.
