11 The qualifications and training requirements for administrators and educators are as follows: (b) educators must have successfully completed the Introduction to Early Childhood Education course or hold an Early Childhood Education Certificate.	11(b)	Nov 30, 2021	
Comments: Still awaiting the certificate for an educator. The operator will contact the person who takes care of the online courses to find out if it was mailed or not. The other educator will do her ECE in September.			
30(3) An operator shall maintain the indoor play area of a licensed facility to ensure the safety of the children.	30(3)	Jun 18, 2021	
Comments: The play structure inside the daycare is made of wood and the bars are less than an inch apart. The slide is commercial, no protective surface. The structure is currently closed with a shelf. During my visit, no child was around the indoor play structure. The structure is not stable, it wobbles and it should be hung on the wall. Discussion with the operator of the possibility of removing the play structure from the daycare and put it outside.			
31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	Jun 18, 2021	
Comments: Protective surface (not yet 30 cm) has been added under one of the structures. It's important to remove medium and large rocks from the protective surface and the protective surface should be 1.8m away from the play structure. The operator has been advised that she should not let them play in structures that are not compliant. The protective surface for the play equipment is not sufficient (less than 1-3 inches depending on the structure). Outdoor play structures cannot be used if they do not have the protective surface required by the manufacturer's manual or CSA. It's important to scrape for the protective surface to conform.			
33(2) Stationary equipment in the outdoor play area shall be surrounded by a protective surfacing and installed according to the manufacturer's instructions.	33(2)	Jun 25, 2021	
Comments: Materials have been ordered to repair the commercial structure in the outdoor park which should not be used until it has been repaired. Protective surface (not yet 30 cm) has been added under one of the structures. It's important to remove medium and large rocks from the protective surface and the protective surface should be 1.8m away from the play structure. The operator has been advised that she should not let them play in structures that are not compliant.			
34(6) Access to a public pool or a public swimming area by a child receiving services at a licensed facility is permitted if there is a lifeguard on duty.	34(6)	Aug 17, 2021	Sep 30, 2021

Comments: Deficiency is now compliant. Received the document by email.			
44 An operator of a licensed facility shall have a first aid kit that is equipped with the contents prescribed by New Brunswick Regulation 2004-130 under the Occupational Health and Safety Act as a first aid kit that is not a personal, Type P first aid kit, and a telephone in working order (a) on the premises of the licensed facility.	44(a)	Aug 20, 2021	
Comments: The first aid kit has been ordered and will be received by the end of the week.			

General Comments
<p>The daycare meets the requirements of the Early Childhood Services Act and New Brunswick regulation according to the ratio, the diaper changing and the nutrition.          Observation of snack time.          The children go outside before the end of my visit.</p>
