

## Early Learning and Childcare Facility Inspection Report

Type of Inspection:  
Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

Name of operator C.S.E Little Hands-Little Feet C.E.C Inc.	Licence Number 2017528	Inspection Date November 29, 2021	
Facility Name C.S.E Little Hands-Little Feet C.E.C Inc. 2		Telephone Number (506) 479-1722	
Address 1036 chemin Tobique DSL de Drummond NB E3Y 2K4			
Name of Early Learning and Childcare Licensing Staff Pascale Dumont-Levesque		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected
11 The qualifications and training requirements for administrators and educators are as follows: (b) educators must have successfully completed the Introduction to Early Childhood Education course or hold an Early Childhood Education Certificate.	11(b)	Nov 30, 2021	
Comments: Still awaiting the certificate for an educator. The other educator has started her ECE in September.			
21 The daily activities of a licensed facility shall be purposely planned in advance and documented and shall respond to the capabilities, needs and interests of each child.	21	Nov 05, 2021	
Comments: Activity bank, monthly notebook (Ziraf). No documentation of activities. Kinds of Documentation : Portfolios, Families' Narratives, Children's Refections, Project Narratives (Displays), Educators' Narratives, Observations of Children's Interactions with Children, Products (Individual or Group), etc.			
30(3) An operator shall maintain the indoor play area of a licensed facility to ensure the safety of the children.	30(3)	Jun 18, 2021	
Comments: Photos were taken with the modifications made to the structure. While waiting for approval, the shelf must stay in front of the structure. The play structure inside the daycare is made of wood and the bars are less than an inch apart. The slide is commercial, puzzle mats have been put in double thickness as a protective surface. The structure is not stable, it wobbles and it should be hung on the wall. Discussion with the operator of the possibility of changing the place structure in the daycare (put next to a solid wall for more stability).			
31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	Jun 18, 2021	
Comments: Snow and ice aren't considered a protective surface. Protective surface (not yet 30 cm) has been added under one of the structures. It's important to remove medium and large rocks from the protective surface and the protective surface should be 1.8m away from the play structure. The operator has been advised that she should not let them play in structures that are not compliant. The protective surface for the play equipment is not sufficient (less than 1-3 inches depending on the structure). Outdoor play structures cannot be used if they do not have the protective surface required by the manufacturer's manual or CSA. It's important to scrape for the protective surface to conform.			
33(2) Stationary equipment in the outdoor play area shall be surrounded by a protective surfacing and installed according to the manufacturer's instructions.	33(2)	Jun 25, 2021	

Order for Compliance	Regulation	Date to be corrected	Date corrected
<p>Comments: Materials have been ordered to repair the commercial structure in the outdoor park which should not be used until it has been repaired. Snow and ice aren't considered a protective surface. Protective surface (not yet 30 cm) has been added under one of the structures. It's important to remove medium and large rocks from the protective surface and the protective surface should be 1.8m away from the play structure. The operator has been advised that she should not let them play in structures that are not compliant.</p> <p>The protective surface for the play equipment is not sufficient (less than 1-3 inches depending on the structure). Outdoor play structures cannot be used if they do not have the protective surface required by the manufacturer's manual or CSA. It's important to scrape for the protective surface to conform.</p>			

General Comments
<p>During my visit in the morning or afternoon, the daycare meets the requirements of the Early Childhood Services Act and New Brunswick regulation according to the ratio.  Received the check when I visited for the renewal application.  The snack will be at 3.</p>
