30(3) An operator shall maintain the indoor play area of a licensed facility to ensure the safety of the children.	30(3)	Sep 11, 2023	
Comments: The gate to go upstairs need to be fixed because it was not locked, and it needs to be secure all the time for no children to go in the stairs without supervision. The fence around the pool is fixed. The upstairs area still cannot be used until the indoor area is clean and ready to use. Photos will be emailed to me by Friday.			
31(6) The outdoor play area of a full-time or part-time early learning and childcare centre at which services are provided to infants or preschool children shall be enclosed with a fence at least 1.22 m in height with a gate that is secured at all times when the children are present.	31(6)	Sep 05, 2023	
Comments: The 2nd gate has been temporarily closed by a strap.			
34(2) Access to a private pool with a filtration and chlorination system by a child receiving services at a licensed facility is permitted in the following circumstances: (b) the pool is enclosed with a fence at least 1.52 m in height in addition to the fence enclosing the outdoor play area.	34(2)(b)	Sep 15, 2023	
Comments: The fence around the pool is fixed. The outdoor area needs to be clean to ensure the safety of the children when they have to use the emergency door for emergency evacuation drills. Photos will be emailed to me by Friday.			

General Comments During my visit in the morning, the daycare meets the requirements of the Early Childhood Services Act and New Brunswick regulation according to the ratio.
