General Comments During my unplanned morning visit, I observed that the required staff to child ratios were respected for all age groups present. In addition, no infants present. The outdoor play area is located less than 350 metres from the facility and is maintained in a manner that ensures children's safety and eliminates any potential hazards. It includes a shaded area providing a minimum of 0.45 m² per child, calculated based on the maximum capacity of the play area. The play surface is made up of a variety of materials that support different types of activities. The area designated for preschool-aged children is fully enclosed by a fence at least 1.22 metres high, with a secure access point. The materials and equipment available are varied and sufficient in quantity for all children in attendance. The children go outside during my visit.
