### General Comments

When I arrived, the children were in quiet time. They were engaged in different activities including coloring, some were making bracelets with beads and small elastics, others were playing with board games and slinkies.

Around 2:30 half of the group went outside, and the other half had snack and played with toys/activities of their choice. Some chose to read books other played with Jenga, blocs and the play kitchen. The second group eventually joined the other kids outside.

The outside playground is well maintained, and the children had lots of fun running around.

All the educators were very respectful, kind and engaged with the children. Lots of positive child guidance observed such as gentle reminders, encouragements and acknowledge of accomplishments.

The Centre is clean and well organized in different stations. There is lots of materials to meet the children interests and educational needs.

Everything is in compliance today; I recommend for licensing.
