### General Comments

Children were divided into two groups when I arrived. One group was inside working on building roller coasters out of wooden blocks, while the other group was playing outside.

The facility's indoor environment offers a very clean and bright welcoming atmosphere for the children to thrive in. Both school age classrooms have an abundance of learning materials that meet the interests of the children.

The outside play space offers different materials/surfaces that encourages and promotes different kinds of play. For example, children were observed being able to bring the "inside outside" as they were doing crafts, there is a play structure for them to play on, sandbox, a dome climber, etc.

Educators were observed being attentive to the children during time of inspection, they were also quick to act and comfort children when needed.
