### General Comments

Educators walk to the school to pick up the children once they were dismissed, as the school is right across the road from the facility. Children who attend the facility from other schools are bused in on a Go-Go bus.

Educators were observed interacting and playing with the children for the entire time of inspection.

Educator files that were observed today were in compliance with licensing regulations

The younger children went right outside to have when they arrived from school. Educators ensured that everyone properly washed their hands before and after snack. Educators also ensure that children applied sunscreen and had their water bottles before going out. When the second group of children arrived, they were also given the opportunity to have snack, they decided to stay inside to play until the older children arrived from school.

This facility was observed "bringing the inside outside". Children were observed being provided with the opportunity to color/draw and make bracelets while outside. Other children were observed playing basketball, playing on the play climbers and playing active games at time of visit.
