Address 87 Main Street Fredericton NB E3A 1C2			
Name of Early Learning and Childcare Licensing Staff Jennifer Godin		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

### General Comments

When I arrived for today's renewal inspection, one group of children were already outside, and the other group was playing freely around the room. The group that was inside were waiting until the grades 3-5 arrived so they could all go outside together as a class.

Children are either greeted at the school by the educators and walked over to the facility or are bussed in if they attend a school that is too far to walk to.

Educator was observed getting special tabletop activities ready for the children to do when they come in from outside.

Observed educators providing ample warnings before transitions were to take place. They were also observed interacting with the children at time of inspection.

The facility's indoor environment offers a very clean and bright welcoming atmosphere for the children to thrive in. Both school age classrooms have an abundance of learning materials that meet the interests of the children.

All administrative records that were observed today were all well organized and in compliance with licensing regulations.

Unable to inspect protective surfacing around play structures and unable to inspect two different play surfaces as there was snow on the ground at time of renewal inspection. Quality Assurance Monitor will follow up with a monitoring visit to inspect outside play space in the spring/when the snow melts.

The gate between the two outside play spaces is broken as the fencing material has become detached from its frame. Childcare manager put in a work order at time of inspection and blocked off the area. Please ensure to have fencing fixed/replaced as soon as whole section of the fence is accessible once the snow melts. A member of Go-Go's facility department was on site before end of inspection to assess the situation.

Recommended for renewal.
