General Comments

Children were arriving from school when I arrived for today's visit. One group was observed to go directly outside to play, while the second group stayed inside for snack and to do a craft. The group of children outside were observed playing tag, on the play climber, playing a game of "graveyard", hanging out and playing with basket balls. Observed the educators who were outside with the children talking to them about the importance of keeping the play space clean and litter free. The group that was inside was observed playing freely around the room and were provided with the opportunity to do a spider craft.

Educators were observed being attentive and playing with the children during time of inspection. They were observed providing gentles reminders to the children when need be. They were also observed ensuring they got down to the children's level when speaking with them.

There is an abundance of learning materials that meet the interests of the children in both classrooms.

All staff files that were observed today were in compliance with licensing regulations.

Observed handwashing signs posted at all handwashing sink locations.
