Comments: The inspector reviewed 12 children's files and observed that one file is missing the address of the child's medical practitioner. All children's files must contain the name, address, and telephone number of the medical practitioner. The inspector informed the administrator who obtained the information from the parents and added the medical practitioner's address to the child's file. Deficiency is now compliant.			

General Comments
The inspector is on site to conduct a renewal inspection. During the inspection, the inspector observed the morning outdoor play period, lunchtime, and indoor free play activities. In one classroom, the children are engaged in drawing while the educator interacted with them to discuss and plan activities based on their interests. In another classroom, children were playing with playdough and creating diamond art projects. A discussion is held with the administrator regarding employee files. The administrator was reminded that all employee files must be complete and contain all required certificates and documentation. The ratio is respected throughout the inspection.
