Part-time Early Learning and Child Care Centre	45	SCHOOL-AGE
ELCC Licensing Staff	**Position Title**	
Sophie Powers	Quality Assurance Monitor	

Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

The Quality Assurance Monitor (QAM) was on site to conduct a monitoring inspection. The inspection took place on a school closure day; therefore, children were present at the facility throughout the day.

During the inspection, the following areas were reviewed:
- Child-to-staff ratios
- Daily activities
- Daily routine
- Indoor play area
- Storage of children's personal belongings
- Storage of toxic products and cleaning supplies
- Washrooms

During the visit, children played outdoors and transitioned to indoor free play as the QAM left the facility.

The Quality Assurance Monitor recommends that labels are added to all children's storage spaces. Currently, only the individual little bins are labelled with the children's names. The cubby hooks and indoor shoe storage racks are not labelled and should also be clearly identified for each child.

No non-compliances were identified during the inspection
