11(c)(ii) Les exigences concernant les compétences et la formation des administrateurs et des éducateurs sont les suivantes : c) dans une garderie éducative à temps plein ou à temps partiel : (ii) à compter du 1er juillet 2020, (A) au moins 50 % des éducateurs doivent être titulaires d'un certificat en éducation à la petite enfance d'un an ou posséder une formation équivalente selon le ministre, (B) l'administrateur doit être titulaire d'un certificat en éducation à la petite enfance d'un an ou posséder une formation équivalente selon le ministre.	11(c)(ii)	May 06, 2025	
Comments: 4 out of 9 have their certificate in early childhood education or equivalent training according to the minister. If an educator is not sure if their education is considered recognized, they may inquire at Exemption. ECPE@gnb.ca. A discussion took place with the person in charge at the daycare. A plan will need to be completed and sent to the Quality Assurance Monitor.			
11.1(3) Les membres du personnel qui travaillent directement avec des enfants en bas âge ou des enfants d'âge préscolaire doivent suivre chaque année dix heures de formation qu'approuve le ministre et qui se rapporte au curriculum éducatif en usage dans l'établissement désigné.	11.1(3)	May 01, 2025	May 01, 2025
Comments: A staff member who work directly with infants or preschoolers are required to complete 10 hours of training per year approved by the Minister that relates to the educational curriculum in use at the designated facility. These certificates are not present in 4 folders. When the educator completes their ECE course, they must then begin their professional development hours. A discussion was held with the Administrator on this subject. The administrator mentioned that the next certificates will be in the employees' files. Each time an educator receives a certificate, this certificate must be present in the file of the staff member concerned. So, to be more precise, between January 31, 2025 and January 31, 2026, all professional development certificates will have to be in the file of each staff member. Deficiency is now compliant			

General Comments
At the time of the renewal inspection, educators were observed standing at the children's level to interact, taking care of them outside when they need help, doing activities with paint, guiding two children in times of conflict so that they can find a solution together. Hand washing took place and dinner. Then, the relaxation/sleep period took place with educators who make sure that the children are well settled. The planned activities of each class are all displayed for parents to see. The ratio is respected at the time of inspection.
