<p>General Comments</p> <p>The center appears very clean and they are following COVID guidelines well. During my visit the children had lunch and then got ready for a nap. Children who do not nap play quietly with different materials. The administrator and I discussed different ways to set up one of the rooms while still maintaining COVID guidelines, as they wanted to change the space around, and we came to a solution. The facility had been previously approved to move the age groups in the rooms downstairs, and the change seems to be working well. I noted the children's work on the walls which brightened the spaces.</p> <p>I looked at the playgrounds and they appeared to be clean and safely maintained. We talked about the pea gravel being loosened in certain areas. I was told about new materials the facility will be soon receiving for the outdoor play areas, as well as upcoming changes they are hoping to do in the near future. They are excited for this, and I will look at them during my next visit. The facility will submit a change in service form for any changes that require this.</p>
