<p>General Comments</p> <p>Upon arrival I was signed into the visitor log. COVID protocols are being followed well. I looked at program planning and documentation in each classroom today. Program planning is being completed and I saw written planning in most classrooms. The written programming I saw was very well done and was well thought out. There were also thoughtful reflections for each activity written. As discussed, I suggest more written programming in one class. That class had well written learning stories posted. The educator is very observant and sees the learning and how it ties back to the curriculum. There are learning stories in the hallway as well which are well done, and I suggest to update these to newer ones.</p> <p>I noted checklists were all up to date, including cleaning, nap checks, first aid kits. The cleaning checklists are detailed and also include the strength of the cleaner used. Attendance sheets are up to date and reasons for absence are being used. Daily information sheets are kept up to date for the infants. Potential illness forms are being used, filled out properly and signed by the parents. Paperwork is organized. On the day of my visit things seemed to be going well with no issues.</p>
