<p><b>General Comments</b></p> <p>Infants were observed eating their lunches. Children highchairs were clean and all children had been provided bibs. Children were encouraged to eat independently and their educators provided assistance as needed. Infant sheets are being filled out appropriately and all bottles have been labeled for each child.</p> <p>Younger preschool group was transitioning from lunch to quiet time. All cots were spaced appropriately and had fitted sheets and children's blankets, which were inviting for their rest time. Educators were observed cleaning after lunch and sitting with the children to help them settle for their naps. One child was observed to have a bottle sitting next to them. Licensing staff discussed with operator that children are not to drink bottles while laying on their beds. The operator advised that this was a child that was new to the facility and that they would transition them away from this routine.</p> <p>The indoor play area was well organized, and the materials were sufficient for the number of children present. The loft area in the older preschool room is being utilized nicely as a dramatic play area with doll houses, dolls and puzzles.</p> <p>Positive behaviour guidance was observed at all times.</p>
