<b>General Comments</b>
<p>Inspector is onsite to complete the renewal inspection. Inspector observes the children returning from the play park in the morning, lunch time and indoor free play. In the afternoon the children actively participated in a guided meditation.</p> <p>The inspector has a discussion with the administrator with observations made during the renewal inspection with the after-school classroom, as well as conversations held with the educator. During indoor free play, children were observed throwing blocks in this instance one almost hitting the inspector, playing with an unstable shelf that posed a tipping hazard, and hitting each other with a wand. These actions occurred without intervention from the educators. The inspector brought these situations to the educators' attention during the observations. Inspector has a conversation with the administrator on the importance of maintaining constant supervision and intervening promptly when necessary to ensure the safety and well-being of all children. The administrator will have discussions with the educator on this situation.</p> <p>The ratio is respected during the renewal inspection.</p>
