Order for Compliance	Regulation	Date to be corrected	Date corrected
29 An operator of a licensed facility shall ensure that the traffic area and the outdoor walk-ways of the licensed facility are free from obstructions and hazards.	29	Jan 18, 2023	Jan 17, 2023
Comments: Deficiency is now compliant. Licensing staff observed after the latest snow/ice pellet storm that not all exits were shovelled out. This was corrected during my visit and is no longer a compliance.			
50(2) The operator of a licensed facility shall inform the parent or guardian of a child involved in an incident on the day the incident takes place and shall ensure that the parent or guardian signs the daily log to confirm their awareness.	50(2)	Jan 17, 2023	Jan 17, 2023
Comments: Deficiency is now compliant. Most non reportable incidents are being documented and stored in a binder in the office. Licensing staff observed some types of incidents are not being recorded and the Operator stated they will follow up and going forward ensure these are completed and stored in the incident report binder. Refer to section 6 in the Operator manual for further guidance.			

General Comments

Monitoring inspection performed.

Upon arrival, most children were napping - all babies, all 2's, and a few 3- and 4-year-olds. The 3- and 4-year-old group were playing quietly. Children are given choices of activities for those children who do not nap. The educator asks each child individually " what table do you want to go to - we have the small blocks, Lego, play doh or loose parts table'. The educator also offered to read a story to the children. Lovely programming posted about children's learning experiences. Licensing staff observed activities focused on children's imagination, building on vocabulary and language, exploring the tools used in writing and enjoying and documenting favorite interests - learning about birds and arctic animals. Administrative records were reviewed, and attendance is tracked, new staff records reviewed. infant toddler records are documented daily, incident reports are being completed and parents are signing off on them, so they are aware, fire drills recorded, and outdoor checklist completed monthly. I did observe children earlier in the day outdoors while I was visiting Munchkins preschool. Children were waking during my visit and will be going outside again. Children love the snow.
