General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, the children were in the process of waking up from quiet time. Inside, the classrooms were bright, welcoming and organized. Current learning stories, process art and pictures of the children were observed throughout. In the infant room, the infants were observed sitting at a table together eating afternoon snack. The 2-year-old class was observed using the washrooms before applying sunscreen to go outside.

The transition from inside to outside was smooth. The Educators sang songs to keep the children engaged as they waited for their peers to get hats on and change into their outdoor shoes. Once outside the children had afternoon snack. Earlier in the day the children had made their own ice cream. For afternoon snack the children had the opportunity to sit together at a large picnic table and eat their ice cream.

The 4- and 5-year-old children were outside upon arrival and transitioned inside to use the washroom and have afternoon snack inside. The tables were cleaned before and after snack time. Once the children had finished eating, they joined the other class outside on the playground. The children were observed smiling and laughing as the danced to music while others play in the sandbox and mud kitchen area. Only positive child guidance was observed during today's Monitoring Inspection. The Educators encouraged independence and were patient as the children learn new skills. Staff files were reviewed and contained all required documents.
