

## Early Learning and Childcare Facility Inspection Report

Type of Inspection:  
Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

| General Comments  |
| <p>Monitoring inspection performed.</p> <p>New Covid guidelines are being followed. Visitors are asked to sign in. Parents are not considered visitor, however if they are on site in the classroom visiting, I would recommend documenting this on the visitor log for contact tracing purposes.</p> <p>Small group - only 4 preschool age children today during my visit. This is a morning program so the preschool commenced operation last week. Children are beginning to learn the routine.</p> <p>Program focus is all about me this week. Children were involved in a variety of age appropriate activities. They were observed painting, drawing their faces, cooking and building a race track. All children had a bathroom break and washed hands. All children were observed in outdoor play opportunities.</p> <p>This license is in continuation while waiting for fire and health inspections. These have been suspended because of covid testing.</p> <p>I observed in the outdoor play area a protruding screw near the back exit and I pointed this out to the operator. There is also quite a drop (maybe 2 feet) near the back of the cedar trees so I talked to the operator about putting up some sort of barrier. It has become noticeable as the trees are beginning to thin on the bottom. The operator indicated she would be addressing these concerns.</p> |
