

## **Early Learning and Childcare Facility Inspection Report**

Type of Inspection: Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

Name of operator   Little Munchkins Preschool Inc.   2017993   September 12, 2022							
Facility Name Munchkins Clubhouse 2017  Address  2288 640 Route Hanwell NB E3E 2E8  Name of Early Learning and Childcare Licensing Staff Joanne Voye Page  Order for Compliance  Regulation  Regulation  Date to be corrected  General Comments  Monitoring visit performed. First day for preschool morning program. A small group of 3 and 4 year old children on site. The children had finished snack, were toileting, washing hands, changing into outdoor footware, packing their things and heading outdoors for outdoor play time. Licensing staff noticed the educator had measured and posted on the wall the children's heights with string today. The indoor play area today is purposefully planned, and organized into flexible playspaces that invite children to explore their environment.  Educator binder is all organized and set up and ready to go for the new preschool year. Children's attendance was tracked today. Children were just getting used to the routine and their surroundings. They enjoyed exploring their outdoor play environment while waiting for parents to pick up. The outdoor reading library is a lovely addition and it seemed to get used a lot during my visit.  I visited the other facility after the preschool children left at 11:30 and then visited the FT program located next door.  Please ensure sanitizer solution bottle is labelled and replenished prior to children's arrival. Also please keep mop and pail, broom stored in the closet when not being used. The educator stored these things away during my visit. I will follow up on the Virex ready to use solution and whether it needs to be stored locked. Normally diluted solutions can be stored out of reach of children.
