General Comments

The rooms have been reorganized since my last inspection and new materials added. There are different materials to meet the interest and learning needs of the children such as blocks, books, dramatic play materials and art supplies. There are some of the children's projects on the walls and also some learning stories. Positive child guidance was observed such as encouragements and positive reinforcement. Staff were engaged with the children, talking to them about their school day. The bathroom in room 2 would need extra cleaning and dusting. There are soap drips down the walls and baseboard heater. There are also spider webs in the corners. The room 2 walls would also benefit from being washed (or painted) and the room needs dusting to remove the spider webs. I recommend for the licence to be renewed.
