| General Comments |
| <p>When I arrived, the children were playing.</p> <p>Before snack children were asked to wash their hands.</p> <p>A water table was set up inside for the children to play.</p> <p>Children were observed playing with different materials such as blocks, games, some were reading, and others were coloring.</p> <p>One educator was observed sitting on the floor with one group of children and talking with them, the other educator was seen sitting at a table with a child who was coloring.</p> <p>One educator was seen redirecting children who were wrestling by offering them a new choice of activity.</p> <p>The educator set up an animation activity for the children where the children draw a picture and then the picture is transferred into an animation video so the children can see their drawing come to life. A group of children were really interested in this activity.</p> <p>At 2:40, the other children arrived from school and some children, and one educator transferred to the other room.</p> <p>The outdoor playground was inspected and is in compliance with Licensing Regulations.</p> <p>Educators were using positive child guidance practices such as providing gentle reminders and encouraging words.</p> <p>I recommend for renewal.</p> |
