General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, the children were sitting together at a large table eating morning snack. Families were greeted as children arrived throughout the morning. Once the children had finished eating morning snack, the tables were cleaned, and floors were swept.

The classroom was bright, organized and welcoming. Plants and natural elements were observed throughout the classroom. A small group of children were observed playing with Barbies. They were seen dressing them up and playing with them in a large dollhouse. Other children were observed playing a hide-and-seek game with a lock and building with snowflake tiles. A group of children gathered to watch their peers play a game of chess. Big feelings were observed as the game came to an end. The Educator acknowledged the children's feelings and offered suggestions such as talking it out with their help.

Several friendly reminders were given to the group before they started to clean up and prepare to go outside. Water bottles were brought outside and a final walk through of the classroom and cubby area was conducted to ensure all children were lined up and ready to go outside. Once outside, a group of children set up materials to play a game of baseball. Others were observed playing in the wooden treehouse, doing races and making potions at the mud kitchen. Only positive child guidance was observed during today's Monitoring Inspection. The Educator was attentive to their needs, showed genuine interest in their activities and was observed offering positive re-direction when needed.
