General Comments

The center was clean and bright during my visit. The children were playing with various toys in the morning, and then had lunch and a nap. Transitions from one activity to the next appeared to go smoothly, and the children seemed to know the daily routine well.

There were learning stories on the wall, and each child has a binder to record all the activities they have been doing. The children and educators were singing songs on the day of my visit and some of the children were very good at singing the words!

The staff and child files were very well maintained and included all necessary documents. All other required documentation was up to date and met all regulations.

I observed lots of positive child guidance such as gentle reminders, encouragement, and positive reinforcement. The educators seemed to easily anticipate the needs of the infants, and they appeared to know each child well. I saw a lot of positive communication and interaction between educators and children.

Everything was in compliance on the day of my visit and I recommend for licencing.
