Address 168 Canada Street Fredericton NB E3A 3Z8			
Name of Early Learning and Childcare Licensing Staff Lindsay Lewis		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, the infants were outside in the fenced in play area. The outdoor play space offered various resources and materials such as balls, push mowers, shovels, a playhouse and several Little Tikes Cozy Coupes. While outside, the Educators were engaged in play; they were heard laughing with the infants as they played peek-a-boo and other games.

Inside, the facility was bright, well organized and welcoming. Artwork, current learning stories, a family wall and a birthday wall was observed. In one corner of the room, a fall sensory bin with leaves, acorns and large pinecones were set out for the infants to explore. Sensory tubes with orange liquid and a fall book "Pooh and the falling leaves" were displayed next to the sensory bin. The transition inside was smooth. One Educator changed diapers and washed hands to prepare for lunch time while the other Educator heated up lunches and got bibs for the infants to use during mealtime. Both Educators sat with the infants during lunchtime. As they finished eating, hands and faces were washed before the infants laid down for nap time.

Only positive child guidance was observed during today's Monitoring Inspection. The Educators were attentive to the needs of the infants and were heard offering praise and encouraging words. Child and Staff profiles were reviewed today. The files were organized and contained all required documents. Two Glade Room Sprays were observed in the bathroom. As a reminder, A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies; (b) medications.
