General Comments

Licensing Staff arrived at the facility to conduct a Monitoring Inspection. Upon arrival, the children were engaged in a variety of activities. The indoor environment was welcoming, organized and bright. The Educators were well spread out in the facility to ensure proper supervision in all rooms. In the back room, children were observed sitting together at a table for morning snack. One child noted a small spill on the floor. The Educator calmly knelt beside the child and offered assistance with the spill.

Throughout the morning the children freely explored the different areas within the facility. Some children were observed reading quietly, while others traced and colored different shapes. In the Language area, a child was observed saying "Knock, knock, who's there?" as they knocked on a wooden square before turning it over and reciting the number on the square. The Educators were observed sitting with the children giving different lessons. During one lesson, the Educator played Twinkle Twinkle Little Star on the bells.

Only positive child guidance was observed during today's Monitoring Inspection. The Educators were attentive to the needs of the children and spoke kindly when interacting with the children. Staff and child profiles were reviewed on site today. The files were easily accessed and contained all required documents. The Fire Drills and Outdoor Play Equipment Maintenance checklist were posted, and both are up to date.
