<p>General Comments</p> <ul style="list-style-type: none"> -Monitoring inspection completed at the center. -The ratio was respected during the visit. -Guidance of children is done in a respectful and positive way. -The outdoor space offers a variety of structure to explore and play. Surfacing around the play structures respected the standards. Educators are bringing bins of toys and games with them outside. -Medications are stored in a locked toolbox and out of reach of the children. -Activities done with the children are planned and well documented. -Discuss with the educators the importance for children to play outside everyday. -During my visit children were doing craft, playing with legos and board games. They washed their hands for snack and were planning on going outside afterwards.
