<p>General Comments</p> <ul style="list-style-type: none"> -Late afternoon's visit to the establishment for an unexpected monitoring inspection -Ratio was respected during the visit -Displayed on the left as you enter the cafeteria are the following documents: The license, inspection report, orders for compliance, daily routine, evacuation procedures, name of administrator, name and telephone number of QA Monitor and inspector and life-threatening allergies -When it applies a notice to inform parents of the existence of a communicable disease is posted next to the bell to get into the afterschool program -All staff records contain required checks and documentation -All four staff are involved in the weekly planning of activities it is done by taking in consideration the children's interest and a list of activities is posted for the kids and parents -During the visit, it was observed that all educators are engaged with children at their level providing support and having conversations. Open-end questions are asked and guidance is given in a respectful and kind way -Children's indoor play area is safe and clean. - Material and equipment proposed to children in the indoor play area are easily accessible on low, open shelves. It is varied and in sufficient quantity for all children present. -Toxic products, and cleaning supplies are locked under key and are inaccessible to children <p>Observations: When arriving at the center children are all sitting at their assigned tables, they are waiting for their snack (banana bread). Once they have all eaten, they used the washrooms and got ready to go outside for the rest of the afternoon.</p>
