General Comments

The children were having snack when I arrived After everyone finished and washed up, they went downstairs to play. The space is set up over two rooms and children freely go from one to another. The environment is arranged freely, with different resources and Terri uses positive language with the children encouraging positive behavior.

One child enjoyed the rescue heroes and engaged in play while the other children went from one activity to the next. Musical instruments were set up in one room and children enjoyed playing and dancing to music. Terri had music playing and changed as requested by the children. They were familiar with the songs and actions. Documentation was posted throughout the environment in the form of learning stories, webbing (stamping), photos and children's artifacts
