General Comments

Licensing Staff arrived at the facility to introduce themselves as their new Quality Assurance Monitor and conduct a Monitoring Inspection. Upon arrival the entrance was tidy, organized and welcoming. Each child has their own labelled hook and cubby area to store personal belongings. The information board is posted in the entrance area and contained all required documents.

Both classrooms were having quiet time upon Licensing Staff's arrival. Soft music was playing in the nap room, and in the main room children were observed working on wooden animal puzzles, coloring pictures and playing with fidget toys. As the children woke up from nap time, they joined their peers at the table for tabletop activities. In the 2-year-old-classroom the Educator sat with the children at the reading area and read a few books before lining up to walk to the washroom to change diapers and wash hands for afternoon snack. A headcount was observed before leaving the classroom. The children have their own placemats for mealtimes with their picture and name on. Later in the afternoon the children packed up their belongings before transitioning to the outdoor play area.

Only positive child guidance was observed during today's Monitoring Inspection. The Educators were engaged with the children and attentive to their needs. Current learning stories, family pictures and pictures of the children engaged in play were posted throughout the facility. As a reminder, please ensure the Outdoor Playground Maintenance Checklist is filled out once it has been completed.
