## General Comments

A renewal inspection was conducted today.  
The children were observed during inside and outside play, at the Splash Pad, lunch and quiet/nap time.  
There is an abundance of open ended materials available for the children to interact and engage with in all of the learning environments.  
Children's learning is displayed on the walls in the form of pictures, learning stories, captions and art.  
The educators were observed down at the level of the children engaged with them in their learning and play.  
Lots of laughter and positive interactions were observed during the inspection.
