General Comments

A renewal inspection occurred today.

Children were observed both in the indoor and outdoor environments. The educators were observed having meaningful conversations with the children, listening carefully allowing them time to think and express how they are feeling. Educators were observed signing songs, providing invitations using blocks and tape and mark-making materials with large pieces of paper to allow for group activity. Licensing observed flexible areas that are rich in opportunities for sensory learning, social interaction, language, exploration, manipulation, and representation. They are purposely designed and planned to enhance children's healthy development and learning. Educators accommodate children's emerging interests by making children's contributions and thinking visible through displays, documentation, photos and artwork.

Educators observed outside mediating between children, stepping in, or deliberately stepping back, to foster learning. Educators observed bringing the real world in by displaying and documenting the life cycle of a butterfly.

Transitions observed going to the washrooms and outside in fun ways such as, army crawling and singing.

Staff files and random review of children's files were reviewed.

Handwashing, diaper changing producers, mealtimes and nap time observed.

Facility is recommended for licensing.
